September 2014

South Africa: April, 2014 was the launch of the first and **NEW Bible Story of God Leadership Institute**.

August 29-September 7. I will be returning with a USA team that will be teaching section 2 of this very well received leadership development course. In addition, this project includes two youth rallies, one for a school of 400 and another school of 1200. What a great opportunity to share **The Story of God**

FASA – (Fellowship Alliance Southern Africa) based in Medford, New Jersey.

Project Hosts

Jim & Tammy

Walter of NJ had a passion and vision several years ago to build up God's harvest field in South Africa. Having spent many months there over several years, and being able to invest in a safari ranch property, Jim and Tammy use the

resources of their safari ranch to help support and empower U S teams to go to South Africa and mentor developing leaders and workers. Jim and Tammy built a strong partnership with a biblically solid local pastor,

Billy Davies, and together they have prayed together and vision cast on how to accomplish such a monumental mentorship program. Following their heart

desires, **Bible Story of God** came alongside this vision to provide the time tested curriculum which had been used globally in several colleges, seminaries and mission organizations.

Out of this brainstorming and partnering **The FASA Bible Story of God Leadership Institute** was born. It is hoped that in the upcoming project close to 75 pastors, leaders and workers, will graduate from this institute.
